## COAL STRIKE SETTLEMENT INVOLVES NO INCREASED PRICE FOR COAL

### Is Inference From Palmer Statement—Not to Press Contempt Proceedings—Terms Were Drafted on Train by Attorney General and Miners' Leaders.

By Telegram to The Freeman.  
Washington, Dec. 19.—The government made no compromise with the miners in the settlement of the coal strike. Attorney General A. Mitchell Palmer declared today before the interstate commerce subcommittee investigating the coal situation.

"I would not say that I made a settlement of the strike. The government started out to stop the strike and it has won its fight. We are officially satisfied with the results," Palmer said.

The department of justice will not press the cases against the leaders of the striking miners.

"I would not ask for the trial of those officers who have now complied with the terms of the injunction," Palmer said.

The miners are returning to their work and coal production will soon

be normal, the attorney general testified.

Senator Townsend, of Michigan, conducted the examination during the hearing.

"As far as I could learn Dr. Garfield made no objection to the president's statement," the attorney general said. "He saw the president's statement of December 6 and I think agreed with it. I saw Dr. Garfield after my first conference with the leaders of the miners and then arranged for a secret meeting."

The attorney general said he and Dr. Garfield had agreed that perhaps "a new face" might lead to a settlement.

Terms of the agreement made by Attorney General Palmer and the officials of the United Mine Workers, and drafted while they were traveling together on a train from Washington to Indianapolis, was presented to the committee. This agreement was approved by the president, according to the attorney general, before it was submitted to the miners' conference.

## GOV'T TO CONTROL PRICES OF MEAT

### By Agreement of Packers to Get Out of Retail Business and Industries Other Than Wholesale Trade in Meat, Eggs, Butter, Etc.—Great Blow at High Cost of Living.

By Telegram to The Freeman.  
Washington, Dec. 19.—Attorney General Palmer and department of justice officials are today making the final arrangements for the court action which will lead to the dissolution of the un-related industries of the "big five" packers, Armour, Swift, Cudahy, Morris & Co. and Wilson Co. These companies have consented to the issuance of a permanent injunction decree in favor of the government forever separating them from all interests in and control of retail stores and the manufacture and marketing of foods other than the wholesale distribution of their meat, products and substitutes, such as butter, cheese and eggs.

The court decree agreed to will be one of the most sweeping ever issued in the history of the United States. It forever places the "big five" packers under the supervision of the government and the court and leaves the court decree open for amendment as may be found necessary.

Within two years the packers agree to sell their holdings in public stock yards, stock yard railroads and terminals, and to disassociate themselves with the retail meat business and all "unrelated lines."

The attorney general is confident that the arrangement which has been made will aid materially in the fight which he is waging to lower the cost of living.

The decree was consented to without court action or trial. The packers yielded because, it was explained, of the willingness to accept as a patriotic duty in reconstruction time the judgment of others and those in the government with respect to the industry.

## SUPREME COURT RECESS TO APR. 6

### When Webster Action Against Trol- ley Company Is Expected to Come Up—Waring Verdict No Cause of Action—\$650 Verdict Against Ficken.

The December term of supreme court, after being in session since the first day of the month, completed its work Thursday afternoon and then went into recess until April 6th when the action brought by Mrs. Webster against the Kingston Consolidated Railroad will probably be taken up. The action is brought by Mrs. Webster to recover for the death of her husband at the Broadway railroad crossing when a trolley car was struck by a West Shore train.

The jurors on the December panel were excused by Judge Nichols and if the Webster case is taken up in April a new panel of jurors will be called to hear the case.

In the action brought by Henry Waring against Michael J. McDonald for breach of contract and money damages, the jury which had been out since noon time returned a verdict of no cause of action, at 5 o'clock Thursday evening. Mayor Canfield, who summed up the case for the plaintiff, and Mr. Cullen, who represented the defendant, presented their cases to the jury in a very clear and concise manner, causing considerable comment from those who heard the conclusion of the case.

A verdict of \$650 for the plaintiff was found in the action brought by J. F. Hayes and another against Fred Ficken and another, an action brought to recover for breach of contract. There was no appearance on the part of the defendant. Mayor Canfield appeared for plaintiff.

Mr. Hayes owned a farm in the town of Saugerties and during the past summer advertised it for sale in New York city papers. The defendant answered the advertisement and negotiations followed, which resulted in the defendant agreeing to purchase the farm for \$2,500, signing an agreement and depositing \$50 on account. He then returned to his home in New York city, agreeing to come the following week to make the final payment and take possession. He did not return and asked for an extension of time in order to make the final payment. At the same time another party desired to purchase the property but the contract had been signed with Mr. Ficken and the other purchaser was turned away.

Although several communications have been sent to Mr. Ficken he did not complete his contract and an action was brought to recover for the difference between the price Mr. Ficken agreed to pay and what the property is now valued at. Mr. Ficken told the plaintiff at the time of purchase that he would come to the farm in a week and then would come and see the crops. He did not come and the crops were wasted.

The agreed price at the time of the sale was \$2,500 and Edwin Burkhart, who was sworn as an expert, testified that the property was now valued at \$1,500.

A verdict for \$650 was brought in by the jury, which deliberated about five minutes. No other cases were ready and the jurors were excused and court went into recess until April 6, when another panel will be drawn if the Webster case is taken up for trial.

## STAKING OUT ICE FIELDS ON RIVER

### Kuickerbocker Ice Company, Had Gang of Men Busy Thursday—Ice 4 to 5 Inches Thick.

The cold spell has been forming ice rapidly in this vicinity and Thursday Superintendent Fred J. Baker, of the Kuickerbocker Ice Company, had a gang of men busy between here and Turkey Point staking out prospective ice fields to be harvested when the ice grows thick enough.

Superintendent Baker said that he found the ice from 4 to 5 inches in thickness in the river, and that it was strong enough to bear the weight of himself and men. He expects to stake out the ice fields off Port Ewen and at Esopus.

All that was needed was a little snow, he said, and a continuation of the cold spell. This morning with snow flurries in the air the weather gave indications that the hopes of the ice men for a snow fall would be granted.

The weather had moderated somewhat today from Thursday, but it still hung around the zero mark. At 7 o'clock Thursday morning thermometers along the Strand registered from 3 to 5 below zero. This morning at the same time the thermometers registered zero.

## LORD FRENCH HAS NARROW ESCAPE FROM BULLETS OF AN ASSASSIN

### Several Shots Fired at British Commander in Ireland —Constable Wounded and Civilian Killed as Shots Go Wild—Attempt Made in Dublin.

By Telegram to The Freeman.  
London, Dec. 19.—An attempt was made to assassinate Lord French, commander of the British troops in Ireland, according to a Dublin dispatch to the Evening Standard today.

Several shots were fired, one of them wounding a constable who was escorting Lord French.

The attempt upon Lord French's life was made while he was on his

way from the viceroy building to his home.

Lord French was commander in chief of the British armies at the outbreak of the war, being supplanted by Earl Haig.

A civilian was struck by a stray bullet and killed, the Dublin correspondent of the Central News telegraphed.

The attack was made at one o'clock this afternoon, according to the Central News.

## LLOYD GEORGE SPEECH COMMENT

### Loudon Press Sees Need of American Support of League as Hope of World—Most Papers Approve Rus- sian Policy.

By Telegram to The Freeman.  
London, Dec. 19.—Comment on Premier Lloyd George's speech of yesterday was of a varied character today.

The Daily Graphic is astounded that the premier did not declare that Great Britain would go to France's aid, in case she was attacked, no matter what America does regarding the treaty.

The Telegraph expressed approval of the premier's Russian policy and also of the decision to rush peace with Turkey regardless of the United States.

The Daily News sees a necessity of the House of Commons forcing the premier to live up to the warmth of his professed loyalty to the league of nations as "a sole hope for the world."

The Chronicle declared that the United States should awake to the dangers of its delay in settling on peace, declaring that it bids fair to cost more lives than the world war.

According to the Morning Post the premier's statement "confessed failure of his foreign policy backing President Wilson instead of strengthening himself in the interest of the proposed alliances."

"If there is no Russia to make peace with it is curious that there is a Russia against which to wage an unclean starvation war," was the comment of the Daily Herald.

The Daily Mail said: "We waited for American intervention which downed the Hun. Only American cooperation can carry us through to peace. We believe as firmly as ever in America's generosity and disinterestedness."

## PLUMBERS FIND MANY FREEZEUPS

### The extreme cold weather is caus- ing householders considerable trouble the past few days, and all of the plumbers have been kept on the jump thawing out frozen water services, and repairing heating systems that had been affected by the cold snap.

With the thermometer registering below zero the frost is beginning to sink more deeply into the ground. As the frost goes down into the earth the danger of water pipes freezing becomes more acute.

While the weather may not cause the householders to smile as they eyes the coal bin or realizes that the water pipes have frozen again, it is weather that keeps the coal man, the plumber and the ice man smiling.

## MRS. KLEIN SUES FOR HEART BALM

### Seeks \$5,000 From Myer Bahl as Result of His Alleged Broken Promise To Wed—Mr. Bahl 63 And Mrs. Klein 53 Years Old.

Mrs. Mary Klein of St. Mary's street has begun an action against Myer Bahl of Murray street to recover \$5,000 for breach of promise. Mrs. Klein in her complaint alleges that Mr. Bahl agreed on September 19th to marry her but, although on that date she was willing to become Mrs. Bahl, he had changed his mind and would not consent to the knot being tied as agreed upon.

Both Mr. Bahl and Mrs. Klein have been married before. He is 63 years old and she is ten years younger. According to the complaint, on September 13th the plaintiff agreed to marry the defendant on September 19th, and on September 17th both of the parties appeared at the city hall and secured a marriage license but between that time and the day set for the wedding something turned up which made the defendant, Bahl, change his mind.

Brunner, Canfield & Brunner appear for Mrs. Klein and Frederick Stephan, Jr., is attorney for the defendant.

## NAVIGATION ON RIVER IS CLOSED

### Central Hudson Boats Make Last Trip Thursday Night—Last Tow Reached Staatsburg That Night— Transport and Skillypot Still Run- ning.

Navigation on the Hudson river for the season of 1919-20 officially closed Thursday evening when the steamer Newburgh of the Central Hudson Line left the Rondout creek at 9 o'clock for New York. The last tow for the season left Kingston Point about 4 o'clock that afternoon. The only boats now running in this vicinity are the ferry transport and the Skillypot. The tug Rob is also in commission.

The Newburgh of the Central Hudson Line reached Kingston about 5:30 o'clock Thursday afternoon, and left here that evening. This was her last trip for the season as far north as Kingston. She will continue to run, however, between Poughkeepsie and New York. At the Central Hudson office today it was stated this morning that navigation had ceased for the season.

The last tow of the season had gotten as far as Staatsburg. It was stated at the Cornell Steamboat Company office this morning and up to 10:30 o'clock it had not passed Poughkeepsie. While encountering considerable ice it is expected that the tow will be gotten safely through to New York. Once past Newburgh the tow will not encounter so much ice it is thought.

Thursday afternoon the tug Osceola of the Cornell Line on her way up the river with a tow sprung a leak and put into Tompkins Cove where she sank at the dock. It was expected it would be raised today.

This morning the ferry transport experienced no great difficulty in breaking a track through the ice that had formed during the night. She will continue to run as long as possible. The Skillypot is also running.

The tug Rob was busy breaking up the ice in the lower creek and placing boats in position for winter berthing. From the island dock up the creek the ice is growing in thickness.

## MISHAP TO AUTO STIRS SLAVONIA

Soldier Cuts Telegraph to Make Repairs and Results Are Astonishing.

**HAS DIPLOMATS WORRIED**

Ties Up Railroad Traffic and Results in Congestion That Takes Month to Straighten Out—Week to Restore Wires.

Szabadka, Slavonia.—When a wheezing little automobile of American make, driven by a Serbian soldier, broke down on a country road 40 miles from here, it started an international tangle which rolled up until it had the diplomats of four countries worried.

Here are some of the things that began to happen:  
"Three hundred cars of French merchandise bound for Roumania piled up on the four switches of the railroad yards here and congested things until not a wheel could move.

A Red Cross supply train of 80 cars bound for Bucharest, came up behind the French trains and completed the tangle of communications.

Ten Americans were marooned for nine days on board the Red Cross train.

Sends Train to Investigate.  
Roumanian merchants who were relying on the prompt delivery of the French goods sent a special train from Bucharest to investigate the delay.

Szabadka an important town on the frontier between Hungary and Serbia, was cut off from all communication with the outside world.

The Serbian soldier who was the innocent cause of all this trouble was driving his car merrily northward one day when the steering gear went wrong. He stopped, found the cause of the difficulty and decided that he needed a piece of stout wire to repair the damage. He reached up to the long-hanging, single-wire telegraph line and cut off a generous section.

Having fixed his car, he drove blithely on. The wire gave out presently and he renewed it twice, three, four or five times, from the telegraph line beside the road.

Meanwhile the trains of French merchandise had begun arriving at Szabadka. Official sanction was not frontier for the cars to proceed, per sort of telegraph officials framed the fully countersigned gram, and it was the operator, and presented, of Congest Yards.

He replied: "So the frontier officials decided to wait until it began to work. They waited two days, while more and more trains drew into the congested yards. Szabadka was cut off from wire communication. Mails go only once a week, and then only if trains are running.

The telegraph officials finally decided to send out a line repairing party. The party returned after another day's delay, with the announcement that so many breaks had been found their supply of spare wire had given out.

Meanwhile, congestion in the yards increased and the appeals from the French conveyors, the American conveyors and the Roumanian merchants became more urgent. It was a full week, however, before the wires had finally been restored and the official visas obtained. By that time the blockade had become so complicated that it will probably take a month to put Szabadka back on a normal basis.

## INTELLIGENT BUYING.

A representative of the national association of retail clothiers is quoted as saying that clothing prices will "continue upward" and that popular price suits that sold before the war at \$25 and now retail at \$50 "will bring \$60 or more next spring." Although late experience furnishes plentiful basis for such expectation, there is a growing suspicion that such announcements are part of a shrewd traders' scheme to scare the public into ready buying now. It can hardly be doubted that the well-grounded fear of higher prices to come is being used for all it is worth to induce the public to reject the advice of disinterested observers to buy sparingly and await a decline in prices.

At present many more or less panic-stricken people go into stores and take the first goods they see, instead of looking around in the old way and considering such bargains as may be within reach. In spite of the high level of costs, there is even now variety at higher and lower prices, and there are still "bargains" in a relative sense for those who insist on getting them. A leading New York merchant is quoted as saying that if the people "would only shop in the public press first, and then come to the stores provided with the knowledge which they derive from a perusal of the newspaper advertisements much good would be accomplished, and I think great many buyers would be surprised at the economies they might find if they used more discrimination in their purchases." A good deal at all times, this is now more than ever necessary. The slim purse is made to permit itself to be led up at the counter intended for the fat pocketbook.

## MEXICAN AND IRISH PLOTS.

Naturally there was much popular indignation when Senator Fall brought to light a Mexican plot to overthrow the United States government by a general strike and to bring the "lost provinces" of California, Arizona, New Mexico and Texas back under the Mexican flag. To be sure it was only a plot of a few radical extremists of "Lodge 23" (doubtless provided with a backing and perhaps even drawing inspiration from embittered German residents), and any active sympathy of the Mexican government therewith remained to be proved; but the American public, irritated by such amazing impudence, in considerable part readily fell for the hectic rhetoric so lavishly poured out by Senator Fall.

If such a ridiculous plot of a few extremists backed by German residents of the land of the Montezumas could excite Americans to anger, what must be the feelings of Englishmen as they quietly observe the persistence, the vast extent and the recklessness of the De Valera movement in this country to involve the United States in war with the British empire for the independence of Ireland. This movement is remarkable not merely for its persistence and extent but for its astonishing boldness. The "President" of the Irish "republic" not only presides over public meetings in many parts of the country—meetings which denounce Great Britain and hiss the President of the United States because of his friendly attitude toward our late British ally in the World War—but his Irish-American supporters, men holding high public office, have personally appeared before Congress itself demanding that the nation take up their cause.

On December 12-13, for example, such Irish-American leaders, headed by Justice Cohalan of the New York Supreme Court, personally urged before the House Foreign Affairs Committee the passage of a bill by Representative Mason of Illinois to authorize diplomatic and consular representatives to the "republic" of Ireland. Being asked whether he could be in favor of the United States going to war with Great Britain in case the latter took any offensive action against the Mason bill, Justice Cohalan answered boldly and emphatically: "Yes—This is a declaration claimed to represent

"20,000,000 Americans of Irish descent." Presumably it preferred this claim to the claim of representing an actual "republic" beyond seas, because in Ireland itself no such republic exists except on paper, the chief support and strength of the movement being in the United States. The English people have much more cause for complaint against this unchecked movement in the United States than Americans have against Mexico because of unimportant little plots such as Senator Fall uncovered. Their claim to Ireland is also much older than ours to the "lost provinces," for, while England took Ireland centuries ago, it is only seventy years since by victorious war we cut off from Mexico the vast territory now included in California, Utah, Nevada, Arizona and New Mexico, after assisting her great province of Texas to secure its independence several years before.

## WELTMAN OBJECT OF CONTENTION

Owner of Ellenville Farm and Worth \$300,000, Sick Manufacturer Sits in New York Court and Listens as Wife and Brothers Wangle As to Who Shall Care For Him.

Samuel Weltman, 47 years old, who owns a farm at Ellenville, although illiterate and speaking English very poorly, has amassed a fortune of \$300,000 during his thirty years in America. Two years ago he suffered a stroke of apoplexy and on advice of his physician went to Ellenville in September of the present year to live on his farm. Mrs. Weltman went to Ellenville to see her husband but claims she was unable to see him. The farm is run by one of Mr. Weltman's brothers, Nissen Weltman, who is 70 years old.

On December 1st, Mrs. Weltman claims her husband was taken to Brooklyn without her knowledge and taken to the home of his brother who resides there.

Wednesday, somewhat bewildered, he sat in court before Justice Scudder in New York, an object of contention, with his wife, Amelia, on one side and his six brothers on the other. Last Thursday he was out walking with a nurse when his wife and her sister, Mrs. Sarah Werbelovsky, chanced by in an automobile. Weltman, so it is said, waved to attract their attention and then kissed his wife.

The other side, however, insists that Weltman was "kidnapped" at the time by his wife and her sister, that Mrs. Weltman "took him from his nurse, to whom he was clinging, pale and frightened," and brought him to the home of her sister, at 530 Kosciuszko street. Oscar and Abraham Weltman sued out the writ, but their brothers are also interested. They contend that their brother's domestic life has not been conducive to health or his peace of mind and that he should be taken to an institution where he can have quiet and rest. Mrs. Weltman charges the brothers are seeking to keep her husband from her.

Meier Steinbrink, who appears for Mrs. Weltman, attached significance to the fact that Weltman upon leaving the stand, looked uncertainly about, passed a brother and sat down near his wife.

Justice Scudder will decide whether or not the sick manufacturer, who is unable of determining where he will live and if not what disposition should be made of his case.

He has two children, one, Jasper, a student at the University of Pennsylvania. Louis J. Altkrug appears for the brothers. The hearing will be continued Saturday.

### SAUGERTIES VS. PEERLESS.

Basketball Game Christmas—Visitors Not Defeated as Yet.

At the Holy Cross parish house on Christmas afternoon a fast game of basketball may be expected when the Saugerties five will arrive at Kingston to play the Peerless five of this city. The Peerless five will try their hardest to defeat the Saugerties team, who have a clean slate for the season, defeating some of the fastest teams of this city. The Saugerties five have some pretty fast men and are old timers at the game. Keeley, who weighs about two hundred pounds or more, will be seen in the lineup, jumping center for the out of town five. They will also have Peters and Styles, a fast pair of forwards, with a couple of fast men from Catskill doing guard duty. The game starts at 2 o'clock and after the game dancing will be enjoyed with Curt Shurtler's singing orchestra furnishing the music.

General Orders No. 11, Hudson Valley Zone, Military Training Commission of the State of New York, which have just been received in Kingston announce that all drills held under the authority of the military training law will be suspended during the period of Christmas recess granted the schools of this city.

In accordance therewith it is announced that all drills of all units in training at the local state armory are suspended from date till Monday, January 5, 1920, on which date training for all units will be resumed on the same schedule that has been in force up to the present time.

During the period from September to date excellent progress has been made in the work of the commission and the local staff of instructors are glad that the commission has seen fit to grant a release from training to the boys of this city during the holiday season as it is felt that the great majority of the boys fully deserve the vacation. The local instructors take this opportunity to wish Merry Christmas and Happy New Year to each and every boy under their charge and are looking forward to the work of the new year with the hope and belief that the spirit of co-operation and interest that has been evident during the present season will become stronger as time goes on and the boys come to a fuller realization of the work that the military training commission is doing in their behalf.

On December 1st, Mrs. Weltman claims her husband was taken to Brooklyn without her knowledge and taken to the home of his brother who resides there.

Wednesday, somewhat bewildered, he sat in court before Justice Scudder in New York, an object of contention, with his wife, Amelia, on one side and his six brothers on the other. Last Thursday he was out walking with a nurse when his wife and her sister, Mrs. Sarah Werbelovsky, chanced by in an automobile. Weltman, so it is said, waved to attract their attention and then kissed his wife.

The other side, however, insists that Weltman was "kidnapped" at the time by his wife and her sister, that Mrs. Weltman "took him from his nurse, to whom he was clinging, pale and frightened," and brought him to the home of her sister, at 530 Kosciuszko street. Oscar and Abraham Weltman sued out the writ, but their brothers are also interested. They contend that their brother's domestic life has not been conducive to health or his peace of mind and that he should be taken to an institution where he can have quiet and rest. Mrs. Weltman charges the brothers are seeking to keep her husband from her.

Mrs. Frank A. Baker

Mrs. Frank A. Brady, formerly Miss Muriel Ostroff, movie star, is suing her parents for \$22,000, which sum, she says, represented her savings of two years in motion pictures. Mrs. Brady, appearing in the supreme court, New York, declared that she gave the money to her father and mother to take care of. Mrs. Brady is twenty-three years old. She was not legally "emancipated" when she gave them the money. There is a law which gives parents the right to a minor child's earnings. Since her marriage Mrs. Brady has not appeared on the screen.

## To Women Who Have the "Task" of Selecting Gifts for Men.

One of the standard topics for humorist's stories is the Christmas Necktie and the Men's Christmas Gift. Of course, we realize that there are cases when a man has received something that he doesn't wish and probably a tie which he doesn't like. But these days are past as far as shoppers in Luckey, Platt & Company are concerned, for if HE doesn't like the gift that you present to him, we are glad to exchange it in this store within a reasonable length of time. The same principle applies to the necktie, but we do not believe there are many cases where men are given undignified neckwear selected by women, for as a rule, it is found that women have good taste in selecting nice things for wearing. However, should it happen that you select a tie which does not suit his personal taste, he is at liberty to exchange it at our store.

And now, a few suggestions. To begin with, we think that we are right in stating that ninety men out of a hundred are pleased with a furnishing of some sort. In our "Luckey Men's Shop on the Corner," will be found scores of suggestions such as:

Hats	Caps	Collars
Soft Collars	Neckwear	Night Shirts
Underwear	Silk Shirts	Madras Shirts
Pajamas	Belts	Suspenders
Hose Supporters	Sleeve Supporters	Handkerchiefs
House Coats	Bath Robes	House Slippers
Socks	Shaving Outfits	Tie Pins
Cuff Links	Shirt Studs	Tie Holders

In other parts of the store will be found more suggestions for men, for instance in "The Gift Shop" in the Furniture Section

Book Cases	Easy Chairs	Writing Tables
Foot Rests	Desks	Desk Chairs

And things of this nature, while the Basement comes forward with Reading Lamps and Small Ash Trays.

The Jewelry Department also has many suggestions, among which are leather novelties, such as

Wallets	Pocketbooks	Key Holders
Cigar Cases	Cigarette Cases	Card Cases

The Stationery Department brings forth

Fragement Books	Desk Pads	Diaries
Dictionaries	Books of Fiction	Encyclopaedias

Besides Engraved Cards and Engraved Stationery.

The Toilet Good-Department shows

Military Pouches	Comb and Brush Sets	Toilet Cases
Traveling Cases	Thermos Bottles	

And scores of other things that men will be glad to have as gift. The Bedding Department suggests auto robes. Then, we have Umbrellas, Auto Lunch Cases, Running Board Cases, Tire Cases, Hat Boxes, Suit Cases, Traveling Boxes, Trunks and Bath Rugs.

And so on throughout the whole store in almost every department, suggestions come forward as gifts to men. Surely, women should not find any difficulty in selecting gift things for men in the store of Luckey, Platt & Company.

In closing, we wish to state that we would be very pleased to cash your Christmas Club checks for you. We also would like to have you come in and get a cup of Reliance Coffee, which is being demonstrated in the Housewares Section.

The "Gift a Day" plan calls the attention to the owner of sales check No. 657-3, purchased in Department 12 on Friday. The free gift at the presentation of this sales check to the Publicity Department is an Umbrella.

Lastly, do your shopping just as early as you possibly can, early this week and early in the morning. If you visit the store in the morning and again in the afternoon, you will readily realize the advantage of it.

## 33,000,000 ALIENS ABSORBED BY U.S.

Ireland and Britain Contributed  
8,400,000; Germany  
6,000,000.

### NOTHING LIKE IT IN HISTORY

Interesting Facts Brought Out in an  
Analysis of Immigration and the  
Foreign-Born Element in Popu-  
lation of Country.

Washington.—"High hope for the proposed Americanization program is held out by a study of the remarkable way the United States has absorbed the amazingly large foreign element of its population," says a bulletin from the National Geographic society.

In describing the volume of this influx, not generally realized, which was halted by the European war, the bulletin quotes from a communication to the society as follows:

"Who can estimate our debt to immigration? Thirty three million people have made the long voyage from alien shores to our own since it was proclaimed that all men are born free and equal and liberty's eternal fire was kindled first on American soil!"

"History records no similar movement of population which in rapidity or volume can equal this. Compared to it the hordes that invaded Europe from Asia, great and enormous as they were, were insignificant."

"Of the 33,000,000 who have come more than 14,000,000 still live among us and their children and children's children are now in good truth bone of our bone and blood of our blood."

Not long ago America crossed the hundred million line in the number of its citizens and it is interesting to note the composition of that population.

11,000,000 Colored People.

"To begin with there are 11,000,000 colored people, including negroes, Indians, Chinese etc. Then there are 14,500,000 people of foreign birth among us. In addition to these, there are 14,000,000 children of foreign born fathers and mothers and 6,500,000 children of foreign born fathers and native vice versa. When all of these have been deducted from the 100,000,000 only 54,000,000 remain of full white native ancestry."

"Yet the 33,000,000 American people who are of foreign stock—that is, foreign born or the children of a foreign-born parent—include some of the most illustrious citizens of our republic."

"An examination of the statistics of American immigration shows that since the foundation of our government the United Kingdom of Great Britain and Ireland has contributed 8,400,000 of her people and Germany more than 6,000,000. Ireland with more than 4,000,000, Great Britain, with a little less than 4,000,000, and Scandinavia, with something less than 2,000,000, have together with Germany, contributed more than half of the total immigration to our shores since the beginning of the Revolutionary war."

"When we take the German immigration to the United States between 1776 and 1890 and compare it with that from other countries, a somewhat startling result, and one usually unsuspected, is disclosed. The total arrivals of aliens in those 114 years aggregated 15,689,000, of whom more than 6,000,000 were British and Irish and 5,125,000 were Germans, which shows that one alien out of every three arriving in America during more than a century of our existence was a German."

Trends Different Since 1890.

"Since 1890 the trend has been very different. With more than 17,000,000 immigrant arrivals since that date, only 1,023,000 have been Germans. If from this number a proper deduction is made for those who returned to their homeland and those who have died since their arrival, it will be seen that there are fewer than 1,000,000 former subjects of the Kaiser in this country who have not been here more than 25 years. Of more than 9,000,000 people of German birth and immediate ancestry among us fewer than 1,000,000 fail to have the background of birth or long residence in America behind them."

It is interesting to note the other foreign elements that have entered into the makeup of American population since 1776. More Irish people have crossed the seas to become part of us than have remained behind.

"Austria-Hungary stands next on the list of contributors to the immigrant stream that has flowed from Europe to America."

"Italy has sent us enough of her people to duplicate the population of Montana, Wyoming, Idaho, Oregon, Nevada, Utah, Colorado, Arizona and New Mexico, while England and Scotland's contribution, 2,850,000 in all, together with Ireland's 4,000,000, gives a total of 6,850,000, or nearly 20 per cent of the states lying west of Texas and the Pacific."

"The Russians who have come to our shores number 3,400,000. They could replace one-half of the population of New England."

### Bishop Wants to Box.

Clermont, So. Afr.—Bishop McLaglen of this city sent to the All Sports Weekly an offer to box any bishop for a fund for disabled soldiers, and added that he will extend the offer to any editor of his own age or any paper. The bishop is sixty-eight years of age.

### Play Safe.

There are several methods of disinfecting the public from the poisonous microbe. For the safest way is to regard them all as poisonous. Do you wash the Italian bandit who spears a man in the back and who died from a stab of them?

## USE STRANGE CURES

**Tobacco Quid Montenegri's**  
 Remedy for Wound.

Charm for Ills Lost Ground When  
 Red Cross Aids Suffering  
 Mountaineers.

Niegos, Montenegro. — American physicians doing relief work in Montenegro tell of some curious methods of treatment employed by the inhabitants of this little mountain country. When a Montenegrin is wounded the first thought of the natives is to apply chewing tobacco, horsehair or a fresh rabbit skin with the hair facing inside. Common ink is considered a sovereign remedy for burns. To stop bleeding sores or wounds cobwebs are used. When a person is bitten by a dog, the favorite remedy is to pull off the animal's ear and rub the wound with it. The patron saint of Montenegro is Saint Vasil, whose shrine is situated on the summit of a mountain between Podgoritz and Niksic. Every week thousands of devout Montenegrins come to this mountain shrine seeking cure for their ills.

But since the arrival of the American physicians the pilgrimages to the ancient shrine have not been so numerous. For the natives have found that their ills can be cured much nearer home and with greater certainty at any of the numerous Red Cross dispensaries and clinics. The inhabitants come from the remotest mountain regions. They are carried in all sorts of conveyances, wheelbarrows, donkey carts, buffalo wagons or on horseback.

In one case an old woman, suffering with scarlet fever, was brought to the Red Cross hospital at Niegos in an iron soup pot. It required four days to get her over the many mountain ranges.

In another instance a farmer carried his typhus-afflicted wife on his back a distance of 65 miles and at the end of the journey fell exhausted on the steps of the Red Cross hospital. He was rewarded for his labors, however, four weeks later by the complete recovery of his wife.

### 'SHELLSHOCKED' AT WEDDING

British Soldier Is Said to Be "First Man Married Without Knowing It."

Bristol, England.—Thomas Maynard, said to be "the first man married without knowing it," was summoned to court here by his wife, his second wife charged with desertion. Mrs. Maynard told the court her husband had previously been convicted on a charge of bigamy.

Maynard explained that a wound received at the front in France caused a clot of blood to form on the brain. He also suffered from shellshock, he declared. When convalescing in a hospital at Bristol, Maynard told the court, a girl took him out one day for two hours and married him.

You were married without your knowledge?" asked the judge.

"Yes, and when I was tried the court said he had never heard of a more remarkable case," was the answer. "I was immediately released after sentence."

Maynard was ordered to maintain his wife.

### GIRL, 18, HELD AS ROBBER

Golden-Haired Young Woman Accused as New York Police Check Up on 23 Jobs.

New York.—An 18-year-old, golden-haired girl stood behind the bars of a west-side police station today while the police were checking up on twenty-three robberies which she and a man 24 years old are charged with having committed in the last two weeks.

The girl, who was expensively groomed, and her companion were armed with pistols when arrested. They are alleged to have carried on a systematic campaign for the robbery of apartment houses by visiting furnished rooms advertised for rent, making note of the surroundings and returning later to rob a search of their home is said.

 Kansas City, Mo.—A fair damsel floated into the grocery store of Ed O. Catlin on Euclid avenue.

"A bottle of milk, please," she asked sweetly. Ed got the bottle. "Oh, what pretty olives," she exclaimed, moving toward the rear of the store. Ed looked, as he was a man, and hadn't noticed such things. "Oh-o-o," she blushed a bit, "may I step behind your counter a moment? You see I—my—just a moment."

Ed turned and went to the front of the store. Suddenly she up and thanked him and started to the door. He remembered and looked. The bottle was still on the counter.

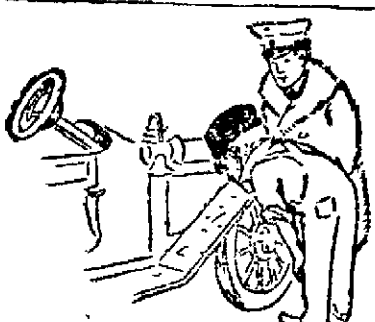

"Here, lady," he explained, "here's your bottle of milk." But the lady kept on going. Then he looked at the cash drawer. It was open and \$75 was missing.

## MIDNIGHT MASS CHRISTMAS EVE

Most Rev. Patrick J. Hayes, archbishop of New York, through Very Rev. John J. Dunn, chancellor, has granted permission for midnight Mass on Christmas eve and the pastors of the Catholic Churches of Kingston have announced their intention of taking advantage of the privilege.

Archbishop Hayes prescribed a solemn high Mass, or at least a missa cantata, or ordinary high Mass. Only one Mass may be offered at midnight, but to accommodate those unable to attend the solemn Mass, a second low Mass may be offered at the same hour in the lower church. This latter condition, however, relates only to the larger churches of New York city. Catholics may receive holy communion at the midnight Mass.

Solemn Masses will be offered at St. Peter's, St. Mary's and St. Joseph's Churches, while a high Mass will be offered at the Church of the Holy Name, Wilbur, by Rev. Thomas J. Corbett.

Rev. John Neuman will celebrate the solemn Mass at St. Peter's and he will be assisted by Rev. Joseph Osterman as deacon and a priest from Mount St. Alphonsus, Esopus, as sub-deacon.

**KNOCKS HIS MAN GROGGY IN THIRD**

Joe Forgione of Newark, a Knock-Out Artist, Displayed His Wares Here Thursday—Sapper Cohen and Young Dempsey Fight Fast Draw.

Joe Forgione of Newark, N. J., who was said to be making something of a sensational showing in metropolitan boxing circles, having won fifteen out of seventeen fights by knocking out his opponent, displayed his wares Thursday evening at the fifth smoker of the Kingston Athletic Club, knocking Joe Kane of Orange, N. J., groggy in the third session of what was to have been an eight round set-to. Kane's seconds to save him being knocked out threw up the sponge.

The boxing card staged that evening was without question one of the best ever seen in this city, with three eight round bouts slated.

The first bout was eight fast rounds between Young Mickey of New York, 116 pounds ringside, and Al Delmont of Newark, N. J., 114 pounds ringside. This was Mickey's third fight before the club, and he is a willing mixer with a wallop. Delmont is a classy boxer, and one of the fastest men of his weight ever seen in action here. He outpointed Young Mickey easily, landing more blows and inflicting more punishment than he received. Young Mickey is tough, however, and although Delmont tried hard to land a sleep punch he was unable to do so.

Joe Forgione, tipping the scales ringside at 125 pounds, and Joe Kane, tipping them at 122 pounds, followed in what was to have been an eight round affair. Forgione at the tap of the bell in the first session leaped from his corner and after feeling his man out went right after him, and had him up against the ropes throughout. In the second round Forgione resumed his tactics and was all over his man, jabbing with right and left to the body and face.

Forgione is a two-fisted fighter, and uses either hand equally well, and after the first round it was only a question of how long Kane could stand the gauntlet. The end came early in the third round. Forgione knocked his man to the floor and when he arose slammed him against the ropes with a vicious right and left.

Kane was so groggy that he swayed against the ropes with guard down unable to protect himself. His seconds realizing that Forgione's next blow would be the dream punch

threw in the sponge.

Forgione and Referee Edward Cashin helped Kane back to his seat where his seconds threw some water over him.

This makes Forgione's sixteenth knockout in his past eighteen fights. One of the fastest and most grueling eight rounds ever staged in Kingston was the slashing session between Sapper Johnny Cohen, who claims the featherweight championship of the Canadian army, and Young Jack Dempsey of Newark, N. J. Dempsey tipped the scales, ringside, at 127 pounds, and Sapper at 123 pounds. Both men have boxed before the club here, but this was the first that they had met each other here. Cohen easily defeated Turk Kelly of Wapplingers Falls here recently, and Dempsey fought a draw with Young Marlowe, the fighting sailor.

It was give and take through all eight rounds. Both men are aggressive fighters and know how to use either hand, and they carried the fight to each other in every session. Early in the fight Sapper received a cut lip, but it did not stop his aggressiveness, and he kept boring in Dempsey, meeting him half way.

Sapper was a trifle the more clever boxer, and Dempsey was unable to invent a guard to protect himself from a right swing to the neck that Sapper landed frequently.

Both Dempsey and Sapper were in the pink of condition, and as round after round slipped by it was hard to say which was the best man. The fight kept the fans on edge, and at the close both men were heartily applauded. Those who saw the fight say it was the best exhibition so far staged, and the general opinion was that the fight was a draw.

Incidentally it might be stated that Sapper Cohen on his way up to Kingston for the fight stopped off at Newburgh and issued a challenge to Willie Chrystal.

It was announced from the ringside that the next smoker will be held New Year's afternoon at 3 o'clock, and that Vincent Coffey and his brother, Joe, would be matched against two fast men. Vincent will likely be matched with Al Tuet of Newark, N. J., who is said to be a comer in the fighting game. Other bouts for that day will be announced when the matches are completed.

## AT THE THEATERS.

**William and Hero in "The White Heather"** Fight on Ocean Floor.

Mauro Tourneur's latest Paramount Artcraft production, "The White Heather," scored a triumph at Keeney's today. The story is adapted from the famous Drury Lane melodrama of the same name. The background of this melodrama is divided between the Scotch highlands, the London financial district, the stums and the sea. Photographically, the picture is superb. Many of the exterior scenes brought forth applause from the audience, and the spectator will find genuine thrills in the fight between the villain and the hero on the ocean bottom. This feature of the production is in itself well worth seeing tonight and tomorrow. Special music and Kinogram News Weekly.

A new photodrama, with Evelyn Nesbit featured as its principal player, is at the Auditorium tonight. Miss Nesbit has been surrounded by an excellent cast. Her son, Russell Thaw, has an important role, and in addition to him the presenting company includes Eugene Strong, Lois Meredith and Charles Wellesley. Also Billy West comedy and Fox news. Tomorrow Mary Mac Laren in "Bonnie Bonnie Lassie" and William Duncan in "Smashing Barriers."

## PARROT BRINGS SNAKE IN HOUSE

Re-enforcements Needed to Remove Reptile From Under the Carpet.

Kellerton, N. Y.—Mr. and Mrs. Adam Metz of this village have a parrot. Polly has been allowed the freedom of the house. The door of her cage has always been left open for her to come and go when she pleased. The bird has enjoyed outdoor life all summer, but her vacation is over. The door of her cage

Polly Flew Into the House.

has been closed and Polly is a prisoner and will remain one for a long time if Mrs. Metz has her way. Polly's downfall occurred on a recent afternoon.

For several weeks Polly has been in the habit of picking twigs from the trees, grass and other things from the lawn and carrying them into the house. Mrs. Metz would scold Polly, but it did no good. On the afternoon alluded to the parrot was in the garden. Mrs. Metz was attracted by her chatter. She went to the door and spoke to Polly, leaving the door open. Pretty soon Polly flew into the house with a long, squirming object dangling from her mouth, and entered the parlor, followed by Mrs. Metz. When Polly dropped the object Mrs. Metz fled from the house.

The object was a brown snake two feet long. The woman called her husband, who was working in the garden. Metz secured a club and found the snake behind a chair. He struck at it, missed it and the snake crawled under the carpet. He tried to drive it out, but it would not move. Metz called a neighbor, John Boots, who came at once. The men removed the furniture, took up the carpet, rolled the snake up in it, carried it outdoors and there killed the snake.

Meanwhile the bird set up a screaming and frequently shouted: "Hard luck, Polly; hard luck, hard luck!"

### HE SLAPS 'SPIDER' ON WOMAN

Whisky Soaked Imagination Leads Oregon Man Into Police Court.

Portland, Ore.—It wasn't a pink elephant or a purple snake that John Dick thought he saw upon the shoulder of a woman pedestrian on the downtown street, but the bibulous John's whisky-soaked imagination inveigled him into believing that a large crimson spider was crawling stealthily upon the woman's coat, near her throat.

John crept slyly upon the woman and his fist came down with undue force where he thought the spider was crawling. In another instant the woman called for help, and a few moments later John was aboard a police patrol on his way to the station. In the police court John admitted he had partaken too freely of a bottle of "white mule" moonshine. He was surprised to learn that the blood red spider was but a segment of his whisky soaked brain, but he sorrowfully admitted that the liquor had been potent enough to produce almost any result.

Judge Roseman prescribed a \$10 fine and seven days in jail as a fitting treatment for his ailment.

### Bird, Smoking Cigarette, Sets College on Fire

A cigarette-smoking sparrow set fire to Geneva college at Beaver Falls, Pa., and this fact will be duly recorded in the official report of Fire Chief River and Thomas of the Beaver Falls department when he makes it to the state.

A student threw the butt of a lighted cigarette from a window to the street. A sparrow perched upon it and smoked to his heart's content in the dormitory. Next came a fire alarm. Not much damage was done.

### Voice of Envy.

Setty had tight curls and her greatest admiration in life was to have her hair shampooed. When she was shown her new hair, she put her hand on her little head and said: "Oh, you lucky little shampooing kiddie!"

## So Human

--it amazed all Kingston

SOME of your friends must have been in the huge audience which heard Alice Verlet in her Tone-Test recital at the High School Auditorium. Ask these people about it. This is the astonishing discovery they made:

*The keenest musical ear can not distinguish any difference between the voice of the living artists and the RE-CREATION of that voice by the New Edison.*

And does it not amaze you, too, that Mr. Edison has succeeded in producing an instrument that captures every subtle sweetness of the human voice--that gives you all the ear can give you of the art of the world's great artists. No other phonograph dares to make this direct comparison

## The NEW EDISON

"The Phonograph With a Soul"

The New Edison alone can RE-CREATE music for you. Come in and hear it for yourself. Make the great discovery for yourself.

**STOCK & CORDTS**

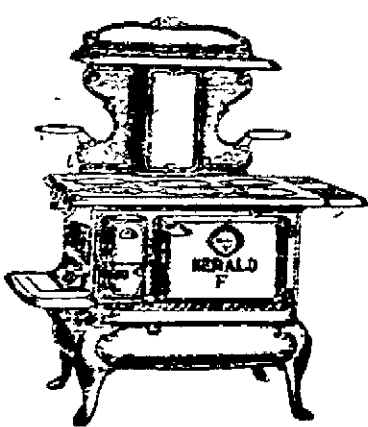

\*The instrument used in Tuesday's Tone-Test is the regular model which sells for \$295 (in Canada, \$431). It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

**PORT EWEN.**  
Port Ewen, Dec. 19.—Hope Lodge, No. 65, Knights of Pythias, will meet this evening at 7:30 o'clock in their Castle Hall on Broadway.  
Everyone is invited to the Bible study given by Harry Rundell in the chapel of the Methodist church from 2:30 to 3:30 every afternoon. It is a unsolved mystery why the people of this place are not interested in their soul's salvation and have no desire to listen to an inspired teacher of God.  
Sunday evening closes the evangelistic campaign that has been held in the Methodist Episcopal church. Evangelist T. LeRoy Muir has preached the gospel in a manner that it ought to have sunk down deep in the hearts of the people of this village. Did it? It is left to you to answer. R. E. Kauffman has conducted the song service in a way that gospel singing should have touched the hearts of all. Did it? Harry Rundell has preached God and the gospel fearlessly. How have you heard him?  
The subject of the sermon this evening at the evangelistic service in the Methodist church is "Salvation." Delegates from Milton, Eddyville, St. Remy and New Salem are expected to be present. After the service a social time will be held.  
Luke 15-24 was the subject of Evangelist T. LeRoy Muir's message Thursday night. The story of the prodigal son. It is natural for men to wander from God, but God's voice is always calling, "Boy, come home." There are too many sons tonight with plenty of money and little to do. More than one sad heart was in that home the boy left that day. How must he heart of God ache tonight because of your wandering far away from home. The world is full of prodigals tonight, those who have turned away from God. God wants his sons and daughters to come home. He's calling you to come home. He looks for you home. Go just as far away from God in sin as you want, but remember that "You'll reap what you sow." Sow Godliness and you'll reap Godliness. Sow sin and you'll reap sin. This prodigal was without money, friends and home. He had to feed the hogs, a pretty low down position for a Jew. He was reaping what had sown. His testimony was no good, just like some of you back-sliders. How'd he get back home? He thought of his father and remembered that he loved him. Then he started home. Thank God he made a start home. Christ's saying to you tonight, "Won't you let me hear your burdens?" He says to sinners, "Come home, I have overcome the world." God says, "I will not forsake you. I will keep you from falling." The prodigal started home. Many were the times that father had looked for his son. And one day he saw him coming. He forgot all and rushed down to meet his boy. The boy looked up into his face and confessed his past life of sin and shame to him. But the father said to his servants, "Go and get the best robe and put it on him and killed the fatted calf, for this my son, which was lost, is come home again." God wants you to come home. He's calling you tonight. Oh! Won't you come back to home and father tonight.  
Mr. Kauffman sang, "I Love Him Each Day Far Better," as a message in song.

inquest into her daughter's death and is expected to repeat a confession she is said to have made last night to Prosecutor Glenn E. Warner, in which she is said to have exonerated Joseph Virgo, former husband of Maud Tabor, of any guilt in connection with the death of her daughter.

The body of Maud Tabor was found in a trunk in the Tabor home at Lawton three years after she was reported to have gone west for her health.

Shortly after the body was found Virgo was arrested. Mrs. Tabor and her son Walter were arrested in California and arrived in Paw Paw late yesterday. Mrs. Tabor, in a previous statement, is alleged to have said that her daughter died from an over dose of chloroform and that she placed the body in the trunk to preserve it—carrying out a pact between she and her daughter.

whereby the body of either was to be preserved until both could be buried at the same time.

**ALLEGED "FRAME-UP"**

President of Closed Boston Bank Makes Accusations.

By Telegram to The Freeman.  
Boston, Dec. 19.—A "frame-up" by "high brow financiers" to eliminate competition on the part of small banks, was blamed today by John R. McVey, president of the Old South Trust Company, for the closing of that institution.

McVey also blamed the Christmas Club proposition on which \$80,000 was paid out and declared that he would never start another. It was stated that there are 5,000 members of the bank's Christmas club to whom the bank owes \$60,000 and that it would at least be some time before the money would be available. McVey added that the financial "high brow" intended to squeeze other of the small trust companies.

**MEXICO DENIES**

That Her Petroleum Production Is Slowing Up—Vessels Lacking.

By Telegram to The Freeman.  
Washington, Dec. 19.—The Mexican embassy today issued a formal denial of "rumors" which are being spread with a view of making the American people believe that the Mexican petroleum industry is decreasing. The embassy's statement declared that the potential daily capacity of all oil wells in January 1, 1919, was 1,400,000 barrels and to day it is over 2,000,000. Lack of vessels for transportation has restricted the output, the statement said.

## 'Foreign Trade Through Foreign Investment'

### A Remarkable Comparison of Bond Prices

For the first time in history investors buying with American dollars are able to purchase European securities at prices which are from 20% to over 130% lower than they would be at the normal rates of exchange.

We have prepared the following table which shows clearly the difference in cost to Americans buying now with dollars British, French, Belgian and Italian bonds in London, Paris, Brussels and Milan, as against July, 1914.

	Cost in American Money July, 1914.	Cost in American Money Dec. 17, 1919.	Difference in American Money.
£100 British Bond @ 81.....	\$394	\$325	\$ 69
1,000 franc French Bond @ 88.....	170	90	80
1,000 franc Belgian Bond @ 103.....	200	107	93
1,000 lire Italian Bond @ 90.....	174	73	101

The marked difference in cost of the same bonds to European and American investors is due entirely to present exchange rates resulting from trade disturbances caused by the war. Authorities agree that this condition cannot continue. Several facts already indicate a possible improvement.

Never before have European manufacturers had such incentives to export to the United States. If they ship goods to America they are paid in American dollars, which are selling all over Europe at a great premium. On the other hand, American manufacturers find it increasingly difficult to develop satisfactory markets abroad because of the prohibitive cost of American goods in foreign countries. Europe therefore will do anything within her power to increase production in order to sell goods to us. America on her part will do all she can to make it possible to export. The combined result of these efforts should in time mean the rehabilitation of the foreign exchange.

In conjunction with the above, the purchase of the internal loans of the allied governments is without question one of the most logical ways of co-operating with these efforts, especially as these bonds can be considered as conservative investments offering, in addition to safety of principal, speculative possibilities. The profits that would be realized should exchange return to normal range from 25% to 125% on the principal involved. If the coupons are withheld additional profits would be realized.

As market prices change so quickly, we suggest that those interested wire or telephone us at our expense for current quotations.

We shall be glad to supply our latest statistical data regarding bonds of all of the allied nations.

MOVE BY SENATE TOWARDS PEACE  
IS NOW ONLY HOPE OF "WETS"

Attorney General Palmer Advises President Wilson He Has No Power To Lift War-time Ban.

By Telegram to The Freeman.

Washington, Dec. 19.—Wartime prohibition will last until peace is declared, or constitutional prohibition becomes effective, it was indicated this afternoon by Attorney General Palmer, who declared after the cabinet meeting that he has advised the president that, despite the decision of the supreme court, the president had no power to lift the ban until peace is declared.

There had been hopes that the decision of the supreme court might make it possible for the attorney general to render a decision that the ban might be lifted before peace is actually proclaimed.

## HUNTING AUTO THIEF.

State Troopers and Highland Authorities Search for Unknown Man.

Highland, Dec. 19.—Efforts are being made by the local authorities and the state police to locate an unknown man who is believed to be in this section with a stolen touring car from New Jersey. Constables Benjamin Gedney and Benjamin Eldred are working on the case with the state police.

On Monday, a man answering the description of the man who is supposed to have stolen the car, was stopped in this village by Constable Gedney. Despite the fact that both the man and the automobile which he was driving tallied with the description given by the New Jersey authorities, the man seemed able to establish his ownership to the car and was allowed to go on his way. Later it was learned that the man stopped by Constable Gedney was the one who is wanted for the theft of the car. He is believed to be in this locality and it is probable that he will soon be placed under arrest and turned over to the New Jersey officials.

## CABINET MET.

Mexico, Leak and Reconstruction Under Discussion.

Washington, Dec. 19.—President Wilson's cabinet met today in its bi-weekly session at the call of Secretary Lansing. General subjects were discussed, those uppermost being the Mexican situation, reconstruction problems and the alleged leak in the United States supreme court.

Attorney General Palmer, who has just returned from Chicago, outlined the future steps in his high cost of living campaign, which will now be vigorously pushed by the department of justice.

## Overcome By Gas Fumes.

Rhinebeck, Dec. 19.—Charles Euler is confined to his bed as a result of being overcome by gas fumes. Mr. Euler was working in his garage and was underneath his car. After completing the necessary repairs he crawled out from under and found that he could not stand up. He managed to reach the door and the fresh air revived him sufficiently to reach the street where he fell down in an unconscious state. He was seen by his wife, who summoned assistance and rushed to the spot. He was carried to the house and a doctor was sent for. The physician stated that if Euler had remained in the garage a few moments longer the fumes would have killed him. He is now much improved and his recovery is assured.

## Special Christmas Services.

There will be a special Christmas service both Sunday morning and evening at the Clinton Avenue M. E. Church. The Rev. G. M. Cranston will deliver a special sermon at both services and Robert Hawksley, Kingston's noted tenor, will assist the choir and will sing solos at both the morning and evening service. Miss May Eckert, violinist, will assist with the musical program.

SEPARATE AIR  
SERVICE LIKELY

By Telegram to The Freeman.

Washington, Dec. 19.—A united and separate air service, as provided in bills introduced in the house by Representative Curry, of California, and Senator New, of Indiana, in the senate, will be authorized by the house military affairs committee, Representative La Guardia, of New York, said today. Such legislation is necessary to protect the service from interference by governmental departments and give an independent control over all aerial government activities, he stated. La Guardia is a member of the house military committee considering aviation legislation.

## Destructive Rochester Fire.

Rochester, N. Y., Dec. 19.—Fire at an early hour this morning destroyed the plant of the Simpson-Walther Lens Company on Ward street here. Inspiration Generally Earned.  
There seems to exist a tendency to ascribe inspiration to a process which is the result of a preliminary effort. Many have noticed that, after long and fruitless mental effort, the result for which they have been striving comes to them suddenly while they are thinking of something entirely different. The preliminary mental toll has borne its fruit subconsciously.

## ALLIES CLING TO LEAGUE IDEA

France and England Believe It Should be Established Even If Subordinate to Old Balance of Power Groupings Which Are to be Revived if U. S. Don't Enter League of Nations.

By Telegram to The Freeman.

Paris, Dec. 19.—A new system of European alliances, re-establishing the old idea of the balance of power, is already in the process of provisional formation as the league of nations fades away more and more into the realms of vagueness.

Just now European statesmen are still hoping that the United States will ratify the treaty, giving the league of nations some semblance of power to regulate world affairs.

Also they have not yet emerged from the bewilderment in which they were cast by the action of the United States senate.

It is regarded as certain here that spring will see the settling up of some kind of a triumvirate composed of France, Great Britain and Italy, unless the United States ratifies the treaty.

It is also certain that this would be followed by a counter alliance headed by Germany.

French militarists who have always scorned the idea of a league of nations are now pressing the Paris government for immediate action towards a new alliance which would practically nullify the idea of a league.

However, it can be stated on reliable authority that this is not the idea of the present government. Nor is it likely to be the idea of the government that succeeds the Clemenceau ministry.

At present the directors of diplomatic policy feel that, whatever may be the treaty's ultimate fate in the American senate, and whatever may develop on this side of the Atlantic in the way of new alliances, there is enough merit in the league of nations to maintain it as an effective organization even though it would be subordinate to the international alliances.

This attitude is reflected by the semi-official Temps which comments in a happy vein over the possibility of a closer agreement between this country and England, as a result of the conferences between Premier Clemenceau and Premier Lloyd George in London. The newspaper rejects the idea that the league of nations should be abandoned unless America enters, holding that the idea is sound and that the organization would go far in preventing future wars.

Complete abandonment of the league of nations, according to the Temps, would result in such unrest among the people of the allied countries that the diplomats might be unable to return to the old system of alliances that was prevalent before the war.

Isaac was forty years old when he was married, and so was Esau. Eli was judge of Israel for forty years. Goliath defied the army of Israel forty days before David killed him. Solomon reigned forty years. Elijah fled forty days, from Mount Carmel to Mount Lereb. Jonah gave the city of Nineveh forty days' warning of its impending destruction.
